Soil Testing Takes Guesswork Out Of Use of Fertilizers

By Thomas C. Casaday Asst. County Agent

How do you know the kind and amount of fertilizer to use for peanuts, cotton, corn. pastures and other crops?

Up until a few years ago get\_ ting real accurate information was almost impossible. But now the Soil Testing laboratory in Auburn has eliminated guess work in the use of fertilizer. Coffee County farmers generally are doing a good job in soil testing. They say it's paying off and they are becoming more enthusiastic each year. In fact, County Agent J. R. Speed reports that interest in soil testing is at an all-time

Mr. Speed had this to say a bout soil testing: A soil test lets the farmer know how much fertilizer is needed to produce top yields; having an accurate soil test made saves the farmer on fertilizer; and probably the most important thing about soil testing is that the farmer gets the right a-Mr. and Mrs. R. made in all categories (99,216 old age) and another 6,224 families were receiving service other than financial aid. Commemorating 25 years of

operation of the Departmen and also the 25th anniversary of the Federal Social Security Act, the report shows trends in aid and service from 1935 to 1960. Old Age Pensions, for example, averaged \$10.72 at the end of the first year of operation (1936), \$18.50 ten years later (1946), \$32.87 in 1956, and \$52.88 in 1960. It was noted that the number receiving pen sions has increased as has the number of Alabamians 65 and The report also charts trends,

indicating the 25-year peak in number receiving payments was 142,799 in August 1957, The Federal Government, ac. cording to the report, has borne an increasing share of the cost from a little over 35 percent the first full year under social security, to nearly 73 percent last year. Of particular interest is the

report on child welfare activities, showing an increasing volume of service to Alabama's dependent children. Illustrative is the rise in adoption petitions known to the agency, from 491 to 3,630 over the CONFEDERATE PENSIONERS quarter - century. Placements rose from 39 to 230. Prestwood stressed in the re.
